

Facility Management / Technical Maintenance

Tertiary and industrial sectors

[> Visit our website](#)

Respecting applicable laws and constantly monitoring changes and new additions to legislation, we take care of buildings, their occupants and the environment.

In particular, as far as technological maintenance is concerned, **VINCI Facilities** is here to support your every need for engineering/re-organisation/facility management services oversight. With highly-qualified staff, VINCI Facilities responds to all the technical and legal needs inherent to the maintenance of devices and systems for heating, ventilation, air conditioning, air treatment, electrical, hoisting, access control, CCTV, fire prevention, etc.
