

# P120-C Program

Launch pad infrastructure and systems

## Telematic Solutions

Telematic Solutions has been awarded a contract with AVIO S.p.a for the design, procurement, installation and delivery of the fluid and Vega Control Bench (CCV) interface for VEGA-C, the evolution of the European launcher VEGA, at the CSG space port, in French Guyana.

In parallel, a second turnkey contract, signed with Vitrociset S.p.a include the realization of the low current systems for the adapted VEGA-C launch pad.

Both contract, backed by the European space Agency ESA aim to consolidate the market positioning for VEGA launcher, that, with 12 successful launches in a row, is the reference launch vehicle for small medium class satellites.

**Contract signed in 2017**

**Expected delivery on December 2019.**
